By Jeffrey Owen Katz Ph.D., Donna L. McCormick : The Encyclopedia of Trading Strategies insider trading is quite different from market manipulation disclosure of false or misleading information to the market or direct expropriation of the corporation the foreign exchange market forex fx or currency market is a global decentralized or over the counter otc market for the trading of currencies The Encyclopedia of Trading Strategies:

23 of 25 review helpful Potentially very harmful fairly useful section on exits By Scott C Locklin I hate reviewing books like this It would be awesome to say this is total nonsense never ever read it However there is actually good stuff in it which makes me work at reviewing it The good the section on exits is quite good It could be better but I can't think of anything out there which actually is better The Encyclopedia of Trading Strategies is for traders who want to

take the next step to consistently profitable trading The authors themselves seasoned veterans of the futures trading arena pinpoint the trading methods and strategies that have been shown to produce market beating returns Their rigorous and systematic backtesting of each method using the same sets of markets and analytic techniques provides a scientific system based approach to system development This book gives futures and options traders hundreds of innovative ways to take profits out of the market and gain an edge on every trade From the Back Cover The authors extract some sobering trading edicts the good ol
