0 of 0 review helpful Don t wait until someone tells you to buy this get it NOW By Wishful Thinking Don t wait for a

teacher to tell you to buy this but it NOW This was a mandatory textbook for a senior level intensive writing class in the Environmental Sciences but if had this book as a Freshman I would have worn it out by now I have The Elements of Style and have used it for years but this book goes into much more This version of the best selling college handbook prepares students to write well in college courses outside of composition With practical advice and plenty of student models a tabbed section D provides a jump start for writing college papers in nine disciplines mdash biology business criminal justice criminology education engineering history music nursing and psychology Each discipline section features information on audience expectations in that are About the Author Diana Hacker personally class tested her handbooks with nearly four thousand students over thirty five years at Prince George s Community College in Maryland where she was a member of the English faculty Hacker handbooks built on innov
