2 of 2 review helpful Something else may be more resourceful By Aisha I bought this book a few years ago and finally got around to reading it this week You can definitely tell this book is outdated It lacks information about recent technologies programs and the recent boost in social media marketing However there are ways around that if you re

reading other books and if you're doing your research. But my biggest issue: Wouldn't you love to own your own trendy boutique, a hot spot that showcases your unique style? Do you daydream about selling your signature products to high-end shoppers? Your dream is just a few clicks and one week away. Whether your taste is classy and elegant or hip and unique, there's a spot for you in today's largest retail center: the internet. In just days, build your posh online boutique selling luxury designer goods or your own upscale. About the Author: Melissa Campanelli is a leading expert in small business e-tailing and the co-author of several e-business books, including *Open an Online Business in 10 Days* and *Start Your Own e-Business*.
