3 of 3 review helpful Buyers Remorse 5 000 By Michael C I confused this with a similar looking book by Mike Rohde I think that s deliberate It looks like a 10 page book report from a kid It s a double spaced wide margin disaster I feel like a fool for even entertaining the idea of reading it because I paid for it In this case my time is worth more than 6 00 In the trash it goes R As you sit down and take notes during business meetings and other presentations you wish for a system in which you can take notes in a dynamic fashion You want to be able to take plain boring old notes and transform them into a medium that will give those ideas structure clarity meaning and life From these ideas this innovative system of note taking can spur your creativity and you can be able to explore new creative avenues and come up with groundbreaking idea
