the work of a team to achieve specific goals and meet specific Practicing Financial Planning for Professionals, Practitioners' Version (9th Edition):

28 of 28 review helpful The consummate book that covers all your financial planning questions By Rich Kraybill If you look at the information notated in the table of contents alone you can see why I say this The breadth of the financial planning topics covered is simply fantastic If you are already in the field or are working towards attaining your CFP there is a lot of information to try to retain to be an expert If one were to own only one book on the subject of financial planning Practicing Financial Planning for Professionals would be the one to have The book is a complete text and reference book for the financial professional the aspiring planner and for anyone truly interested in the financial planning process This book is complete and unique all areas of planning are discussed in an understandable and complete way No one planner no matter how long they have been in practice It is an invaluable reference Now in its 9th edition PLEASE NOTE 10th Edition now available on it has become an institution No one who holds himself out as a financial planner should be without it Harold Evensky CFP 2005 Starts with t
